

multiMEdia is a self-portrait. Words, images, and sound create a multifaceted illustration of me. through the world. through my unique filters multiMEdia presents sensory elements, infused with my soul, returned to the world that inspired them. In the words of poet e.e. cummings,

*. . . the ears of my ears awake
. . . . the eyes of my eyes . . . opened*

multiMEdia is a tapestry. Identity, physicality, and spirituality form the warps that structure the wefts of family, travel, work, living, and relationships. These wefts are woven of poetry, essays, epistles; watercolors, drawings, collages, photographs; words, music; video, animation and interactive media. Patterns reinforce, interfere, and do or don't repeat, reflecting a life graced by both accident and intention.

multiMEdia is a performance. A series of original readings and musical performances during the hours will add sound and sense to the illustrations and installations. multiYOUdia is your performance, an installation to record your words, music and images at the show.

multiMEdia is a gift. Family, friends, and all who wish to join me--this is my 40th birthday gift to you. Bring guests, tell friends. Every presence at multiMEdia is a gift to me.

*Lisa Schuyler Jewell
